A15 SERIES 15 WATT HIGH VOLTAGE DC/DC CONVERTERS

FEATURES

- * Customer Selects Output Voltage
- * Outputs to 200 Vdc
- * Low Profile
- * High Regulation
- * Ultra Wide Input Ranges
- * 1000 Vdc Output Isolation
- * Continuous Short Circuit Protection
- * Economical

The A15 Series low profile high voltage DC/DC converter offers a highly regulated high voltage isolated output in a six-sided copper case. Their small size, wide input, and excellent regulation make them ideally suited for applications that demand a high degree of performance. All models will tolerate a short circuit indefinitely.

ELECTRICAL SPECIFICATIONS

Voltage Accuracy	+/-1%	Input Filter	Low ESR Capacitor
Line Regulation	+/- 0.1%	Efficiency	89% (typ.)
Load Regulation	+/- 0.2%	Short Circuit Protection	Continuous
Output Ripple	< 0.5% P-P	Switching Frequency	115 kHz
		Isolation	1000 Vdc

* 20-60 Vdc input add suffix /B
 * 36-72 Vdc input add suffix /C

GENERAL SPECIFICATIONS

Temp. Stability	+/-0.02%/°C	EMI/RFI.....	Six Sided Shield
Temp. (Operating , Case)	-25 to +70°C	Derating	None
Temp. (Storage)	-40 to +125°C	Cooling	Free-Air Convection

* All models designed to meet UL 60950
 * For RoHS Compliant part, add suffix /Y

PHYSICAL SPECIFICATIONS

Dimensions	1 x 2 x 0.41 inches	Case Material	Nickel Plated Copper (With Non-Conductive Base Plate)
Weight	1.2 Oz
